WHILE RICHARD NIXON LED HIS ALL OUT CAMPAIGN AGAINST MARIJUANA, HEROIN, A KNOWN "KILLER" WAS UNTOUCHED. EVER SINCE THIS INSANE CRACKDOWN ON "GRASS" THERE HAS BEEN AN ALARMING RISE IN HEROIN DEATHS...COULD THERE BE A CORRELATION BETWEEN THE TWO?

BIG CAMPUS DISTURBANCE

A
REWE

By RICK COX

Scene 1: Meeting at the President's house.

Starring - Uncle Bill and his boys

Co-starring - Student Government and some student leaders

Uncle Bill in his unforgettable role, as the Great Equivocator attempts to convince the students that they should follow him. Under the banner of innovative education, he doesn't reveal the methods he will take. The students turn him down by saying that they won't follow him unless they know what he's going to do.

A 2-star performance by Bill with some advice that he shouldn't lay it on too thick in the future.

Special mention to Dean Zades as the part of the straight man.

Scene 2: Speaker's Corner

Starring President Birenbaum and a cast of 300.

President Bill, after his last mediocre role, comes on strong in this one. Bill, as a mild mannered community college president, is faced with the dilemma of open enrollment. Speaking out against faculty antiquities, Bill tells the students that the faculty has been neglecting the educational process for a 10:00 AM to 3:00 PM schedule. This brought about a tremendous applause from the deans and a standing ovation from the standing students.

A 4-star performance by the president. Since his last role, he has shown that he has done his homework and even brought out a blackboard to prove it.

Special awards to the Deans for their parts as the Straight Men.

Scene 3: Faculty meets under closed wraps

Starring 110 Faculty members

Co-starring Bill Birenbaum

In the true tradition of Andy Warhol, an adhoc committee of faculty members sets out to rectify their bruised pride. They confront the poor president (who after his last two roles was now dabbling in foreign production in Hawaii) with a vote of erosion.

A 1-star performance by these faculty members. Because their show was so bad that it had a restricted admission.

Special recognition to: The Council of Chairmen for their role in not identifying who they were and who they were representing.

Scene 4: The Bomb Hits The Students

Starring no one

Co-starring Jim Smith, Steve Zwerling, Joe Harris and those who happened to be caught in the lounge.

Remember this one? When the rumors that President Bill had been impeached by the faculty drove students into a frenzy. An Oscar should be awarded to the organizers of this meeting for their scenic effects and for obtaining the lounge an earlier for that spontaneous look.

A 5-star performance - Excellent staging and acting.

A special Thomas F. Dewey Award to: The organizers

Scene 5: Student Get-Together

Starring - Various speaking students

Co-starring the silent faculty and administration

The curtain rosed in the midst of confusion and chaos. As students grappled with the microphones and everyone was saying he or she was telling the truth, and nobody believed anyone.

A 2-star performance by the student organizers for stumbling on their lines and information. Also for their attempt to pass demands or suggestions that the rest of the students never heard and knew nothing about.

The Spiro Agnew Award to: The Student organizers, who bit off more than they could chew and choked.

(continued on page 8)

VIOLENCE IN AMERICA

ONE COMPANY'S POSITION

(THIS IS A REPRINTED
ADVERTISEMENT FROM
BANK OF AMERICA)

ISLA VISTA, CALIFORNIA, population 11,250. The business district consists of a couple of gas stations, a few small shops, some real estates--and a bank. A large campus of the University of California is nearby. All in all, a normal American suburban community--perhaps very much like the one you live or work in. Normal, that is, until Wednesday, February 25, when violence shattered the peaceful calm of Isla Vista.

At about 8:30 p.m., on the night of February 25, ramping demonstrators--students and nonstudents--protesting the "capitalist establishment" converging on the community's small business district.

Several protesters rolled a gasoline-soaked trash bin through a smashed front door in a Bank of America branch and set it ablaze. Other students extinguished the fire. But just before midnight, with the angry crowd in a frenzy, the branch was set ablaze again. While police and fire officials were held at bay by a rock throwing mob, the bank was gutted by fire and totally destroyed. A police patrol car was overturned and burned. Numerous other fires were started. Windows were smashed and life and property threatened.

These events took place in a community called Isla Vista. They could have happened in your community. They could happen anywhere and with even more disastrous results.

Why did the eruption in Isla Vista take place?

Participants in the violence say it was a protest against the "capitalist establishment," "the war in Vietnam," "the Chicago trial," "student repression," "police brutality," and a list of other grievances against America in 1970. Some of these grievances are real, some are fanciful and others are false. But all deserve to be aired. The degree that they are not aired, are not taken seriously, Americans break faith with their young.

But all Americans, young and old, liberal and conservative, lose by violence. Violence and destruction are the seeds of anarchy and tyranny--whether it be the tyranny of the extreme right or the extreme left. We believe the time has come for Americans to unite in one cause: a rejection, total and complete, of violence as a means of political dissent.

All of us, young and old, liberal and conservative, have for too long been silent on the issue of violence. We have been afraid of labels or slogans that would brand us as either arch conservatives or traitors to a liberal cause. Such sloganeering does us all a grave injustice.

Let us, as a nation, find once again our ability to distinguish between protest and revolt, between non-violence and violence.

Let us cease to condemn those who disagree with us, but let us also be prompt and resolute in putting an end to violence in our land.

To this end we applaud the courageous response of many dedicated public officials. They deserve the cooperation of all citizens. They will have ours.

Every American has a right to walk the streets in safety. No polemic should be allowed to obscure this right. Your wife or

VIOLENCE IN AMERIKA

ONE HUMAN'S POSITION

By Dave Master

The Bank of America is part of the corporate structure that runs the economics, and in turn the politics of this country and the world. The largest commercial bank in America,--the Bank of America's assets for 1969 totaled over \$24, 783, 715, 000. Bank of America knows the power of money and the importance of economics to the people of this nation and the world.

We need help making the world turn.

Like it or not, money is what makes things happen in this world. In business. In government. In all the worldly affairs of man.

It takes money to discover medicines, to rebuild ghettos, to educate children, to feed, clothe, and house humanity. Money is an essential ingredient in solving man's day to day problems -- and in promoting his century to century progress.

In short, money makes the world turn. We're the world's largest bank and putting money to work is our business. We think it's an important enough

business to hire the best people we can find to run it.

A Bank of America personnel representative will be interviewing on your campus soon. If you want to make a career of making the world turn, make an appointment.

BANK OF AMERICA 

AN EQUAL OPPORTUNITY EMPLOYER

BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION MEMPHIS, T. N. C.

(REPRINT OF AD)

Bank of America states that the money is important "...to rebuild, ghettos, to educate children, to feed,...". This statement is correct. Economics controls the destiny of humanity, the politics and the living standards of this nation and the world. But does Bank of America work in the interests of humanity as they would like to make us believe? Bank of America Chairman Lundbourg and ex-Chairman Peterson are affiliated with such notable defense contractors as Litton & Mc Donnell-Douglas. How do Litton & McDonnell-Douglas' destructive weapons help "...house humanity"?

The Bank of America also gives aid to such benevolent organizations as the CIA, through ASIA Foundation. Aid to those who plunder "hungry new markets" and rape "the underdeveloped world". Is this coordinated violence in VietNam and around the world a "public service"?

The Bank of America with over 1,000 offices throughout 47 countries around the world, is not in existence for charity purposes. In the United States, The Bank of America has worked counter to the people interest consistently. The Bank of America, with director Di Giorgio, is one of the largest, parasitic landlords in the state of California, owning properties larger than the state of Delaware. "FEED", "CLOTHE", "EDUCATE AND HOUSE"? If the Bank of America is so concerned with these basic needs of working people why have they fought against the minimum wage demands of migrant farm workers? Why does the Bank of America lobby for the continuation of the "Bracero Program?" (These same migrants/workers are about the poorest part of the U.S. population.) How has the Bank of America's "Generous" support of Anti-Labor legislation helped to "feed or clothe" these people?

The Bank of America's mining concerns, manufacturing interests and companies, such as union oil, are helping to destroy the world's ecological balance (or have you forgotten the oil slicks on beaches of Santa Barbara?)

NEXT STOP: LAOS

BY SAM WOHL

It's about a month now that the media discovered U.S. involvement in Laos. Now that the Plaines des Jarres has been won by the Pathet Lao forces, despite massive B-52 raids over the liberated areas, the growing U.S. involvement in Laos is out in the open. In the case of Laos, the parallels that could be drawn with Vietnam are frightening, and U.S. aggression there is becoming an accepted fact of American foreign policy.

Forced to concede U.S. involvement in Laos by incidents now too blatant to go unnoticed, the State Department is claiming that our military presence there is a recent development, made necessary by movements on the Ho Chi Minh trail or by attacks against Laos by the Democratic Republic of Vietnam. What our government and the media forget to inform us is that their involvement in Laos is not new.

The beginning of colonialism for Laos came in 1899, when it was incorporated into French Indochina. Durring W.W. II, when the French were too busy fighting Nazis, a militant nationalist movement developed in Laos. In 1949 France was forced to grant Laos full self-government within the French Union. The Laotian people didn't accept such partial autonomy. What came in 1951 was the formation of the Pathet Lao, a revolutionary movement to gain full independence for Laos which was led by Souphanouvang. The issue was resolved by the 1954 Geneva accords, which recognized Laotian independence, and by the 1955 armistice, which granted the Pathet Lao control of two northern provinces. The rest of Laos was to be neutral, with Souvanna Phouma Souphanouvang's half-brother, to become premier. Both were delighted in unity, but the C.I.A. replaced Souvanna Phouma's government with a right wing puppet government. In 1962, another coalition government was formed at Geneva again headed by Souvanna Phouma. He was however quickly forced out by the C.I.A.'s incorporated right wingers, and only returned to power when he promised to support U.S. interests. Since 1964, Souvanna Phouma has been operating with U.S. support of the right wingers who control his army.

Today it is estimated that there are 12,000 Americans, not including dependents,

working in Laos. This includes advisors and instructors and this is quite reminiscent of our early involvement in Vietnam. There are 500 air crews for the C.I.A.'s Air America and Continental Service Airlines, with 100 airstrips also under their control in Laos. It should be noted that last October Souvanna Phouma told the United Nations that there were no U.S. troops in Laos. Last November, the Pentagon admitted that 160 Americans were missing and presumed captured in Laos. Nixon has since admitted to U.S. bombing. Through out 1969 the monthly tonnage of bombs dropped on areas controlled by the Pathet Lao exceeded the highest monthly level of tonnage ever dropped on North Vietnam.

The U.S. Air Force planes based in Thailand are now flying 4000 missions a month against liberated areas of Laos. In the beginning of 1969 the Air Force flew 1000 missions a month.

President Nixon has consistently refused to reveal the extent of U.S. involvement in Laos. Actually, he didn't want the people to know that the U.S. had broken the Geneva agreement of 1962. It is obvious to us now that since we are losing a war we could never have won in Vietnam, that the U.S. has to further its genocide imperialism more overtly against Vietnam's neighbor, Laos.

SERVING THE PEOPLE

BY DENNIS MORIARTY

The reason for the existence of any organization or structure should be to aid and help the people. If a group can go about its business without caring about what surrounds it and what composes it, than that group is non-functional and a stone around the neck for the struggle for freedom and equality. Each of us should donate our own individual experiences to the good of the masses thus enabling the people to benefit by our experiences and education.

An organization that leads the people toward a certain direction should never be too far in the vanguard of the masses. We must always be in touch with the ones we want to serve.

"Our point of departure is to serve the people whole-heartedly and never for a moment divorce ourselves from the masses, to proceed in all cases from the interests of the people and not from one's self-interest or from the interests of a small group, and to identify our responsibility to the people with our responsibility to the leading organs of the party. (Little Red Book p171)

There is great need on S.I. for people to establish "grassroots" communication. We should receive our ideas from the people and give our ideas to the people. It is evident that many organizations are afraid of mixing with the man on the corner or the woman in the laundromat but these same organizations are constantly "speaking for the community." The time has come for us to re-evaluate our goals and methods. If we want to service a community, we must be part of the communities struggles and victories.

ON CADRE

Within the structure of any organization there are always 5 to 6 people who control the workings and policies of that group. Within certain political parties that group of leaders has been defined as the cadre.

Che Guevara defines the cadre in the following way. "We should say a cadre is an individual who has reached a sufficient level of political development to be able to interpret the general directives issued by the central power to assimilate them, and to transmit them as ideas to the masses. Besides this he must perceive the peoples wishes and deepest motivations. He is an individual of ideological and administrative discipline who knows and practices democratic centralism and knows how to evaluate the mythological contradictions in the method so as to take maximum advantage of their multiple facets. (From Cuba Socialista; no. 13, Sept., 1962)

The cadre is the moving force behind the organization but never out of step with the organization or the people.

DEATH ON CAMPUS

At 4:40 P.M., Thursday, March 19, a student of Staten Island Community College was pronounced dead by Dr. Rothman, apparently of an overdose of heroin. The student died in one of the stalls of the third floor lavatory in "A" building. He was found by one of the custodians and he in turn called Edgar Paradise, head of the Security Force. (Works were found in the stall with the body.) It's no big secret that heroin is being dealt on S.I.C.C.'s campus, nor is it a secret that it is being dealt on all other college campuses in the city. Something must be done. Students are now working on a solution to solve the problem.

6.

THE FOX AND THE LION

BY DENNIS MORIARTY

Many people are puzzled by the term "ruling class". This essay will attempt to clarify the term and illustrate its significance in a capitalist society. The theory of the ruling class simply means that there are certain individuals, the foxes, who are more cunning and better qualified to rule the masses of people, the lions. The lions may be stronger physically than the foxes and outnumber the foxes, but the latter keep the lions in their place by controlling the beaurocracy and drawing its power from the class below them.

When we say that there is a ruling class in America we mean that 100% of the REAL wealth (natural resourses etc.) in this country is controlled by less than 1% of the people. This is clear when we study the organization of corporations and the power they wield in the politics of this country. The reason for the Bay of Pigs invasion in Cuba was not because a Socialist government overthrew the fascist Batista; the reason was that United Fruit Company had lost its holdings through democratic nationalization.

This theory of the ruling class or elites is brought down to different levels. The level that I would like to illustrate is the university. The higher educational system in America is run by hopes to create a corps of elites. In essence the university is controlled by one man or a board of men. This group directs our formal education and decides who is admitted and who must leave (I do not mean community colleges or vocational schools).

The purpose of the university is to supply the system with people who are capable to rule. This is developed within the university by designating certain students as leaders and giving them certain priveleges. Some students are selected to go away on special weekend discussion groups and sensitivity sessions. Special commissions are set up to divert their energies to keep the university in a clam and non-functional atmosphere.

In order to end the domination of the ruling class over the masses one method must be utilized. TAKE THE POWER. We must organize and mobilize people to usurp the rule of the elites. When the masses realize that they are oppressed by a small group of men of an armed struggle we should move on the ruling class and say: STICK 'EM UP MOTHERFUCKER.

HEROIN & CRIME

In N.Y.C. alone, it has been estimated addicts must raise between \$500,000 and \$700,000 everyday - most of this money is obtained by shoplifting, burglary, forgery, prostitution and many other illegal activities. A recent estimate placed 25,000 addicts in N.Y.C. committing 50% of the city's crime.

THE
POSTAL
WORKER'S
DEMANDS!

BIG CAMPUS DISTURBANCE

(continued from page 2)

Scene 6: Auditorium part I

Starring Student Government as the Shadow

Finally, revealed as an actual body, the student government rose to the occasion. Amidst the shouting of some students that they were not represented, the Student Government tried to answer questions posed to them. They were able to answer half of the questions, hence the 50-50 representation vote on all committees was passed. Faculty and administration were given speaking parts in this showing.

A 3-star performance. Although direction was weak, the Shadow hoped to make more information available for the student body.

Auditorium Part II

Starring the Now Known Shadow

Co-starring Abe Habenstreit

Embodied in this showing was the feeling that the students were being played on by the administration and faculty. Rising to stardom was a young bespectacled Abe Habenstreit, who claimed to be the prophet to Lord Bill. As his spokesman, Prophet Abe foretold of the sincerity of Lord Bill and an assurance that his master would help free the slaves (students). Whereupon, the students cried to the heavens and Lord Bill descended on the auditorium floor. Lord Bill, who had returned from the land of grass skirts, had an attack of amnesia as he memory kept failing him as to what he had said to some students in the past. The faculty along with most of the students busted Bill's bubble of fantasy as he crashed before a crowd of 900 plus.

A 4-star performance: students showed their versatility by playing something else other than a football.

The Alice In Wonderland Award to: Abe Habenstreit for his portrayal of the small town prophet lost in the big city.

Special Mention to the cartoon on who was to be on the student negotiating team.

Scene 7: Faculty Meeting

subtitled - A Lesson In Democracy

Starring the faculty as Yankee Doodle Dandy

Co-starring Dean James (Bert Parks) Fitzpatrick

A 6-hour documentary which tried to depict the true nature of faculty-student relationship. A classic story reminiscent of old Ding Dong School flicks. As the faculty tried to make the students believe that they were for equality but not at 50-50.

A 3-star performance to : The faculty as mathematicians for dividing 100 and getting 50-50 and saying it's not equal.

The Robert Rules Award to: Dean Bert Parts Fitzpatrick

The Point of Information Award to: Prof. Stanley (Bozo) Zimmerman.

The Father of Amendments Award to: Dr. (Phil A. Buster) Pessen

The Australian Ballot Award to: Those faculty member who wanted a secret ballot.

The Stop The Infidels Award to: Dr. Benumof

The Special Humanity Award to: The Faculty body for letting the students speak for 35 minutes.

Scene 8: Monday Afternoons At the Auditorium

Starring the Student Government Executive Board

Co-Starring The 50-50 or fight group

A very shallow story where the Student Negotiating Team told the students that the faculty team is coming around. Coming around Where? A vote on representation was taken to remove the non-negotiable 50-50 in order to give the committee leeway.

A 3-star performance due to the fact that the only stimulating action was from a group of 20 students who were still protesting the Student Government Elections of last October.

The Harold Stasson Award to: Those twenty students

Scene 9: Faculty Negotiating Team Comes Back To The Faculty

Starring Dr. Rueben (Ro Deblock) Benumof and Prof. Stanley (Bozo) Zimmerman as Pistol Stan.

Co-starring the three faculty turned student traitors

(continued on page 9)

BIG CAMPUS DISTURBANCE

(continued from page 8)

This is a charming story about a poor and frightened laboratory professor who believes that his students are rushing to change his 16th century ideas to 20th century reality too fast. After Ro Deblock makes his "progressive" speech on education, Pistol Stan comes to his rescue. Pistol, first, draws on the faculty negotiating team for acting so quickly. But instead of shooting off some knowledge, he shot off his mouth.

A 3-star performance. The auditorium was filled with nostalgia as there wasn't a dry eye in the house. Ro Deblock's (Benumof) medieval performance has not been paralleled since the Scopes Monkey Trial (little quick remembrance for science freaks).

The Al Kelly Double Talk Award to: Pistol Stan Zimmerman

The Get to my Meeting On Time Award to: Dean (Bert Parks) Fitzpatrick

The Ronald Reagan Educational Award to: Dr. Rueben Benumof

Finally, a special award which is being given for the first time at this college called The Gee I'm Alive Award. Given To This College Community for finally speaking against a college system that is 100 years behind the times.

VIOLENCE IN AMERICA

CONT. FROM PAGE 3

husband, son or daughter ought to be safe in visiting a supermarket, a filling station or a bank--regardless of whether another may choose to reject that institution as an onerous symbol.

It is for these reasons that we plan to reopen our Isla Vista branch on Monday, March 9. We realize that there is danger in this course of action. But we believe the greater danger to ourselves and to all of the people in this nation is to be intimidated by mob violence. We refuse to be so intimidated.

Is the branch worth this much? In monetary terms, the answer is no. It is not, and never has been particularly profitable. But it is there to serve the banking needs of the community and we refuse to be driven out of any community by a violent few.

Is this a bad business decision? Perhaps in a narrow sense it is. But we believe that at some time and in some place Americans must decide whether they intend to have their decisions, indeed their lives, ruled by a violent minority.

We are but one bank, but we have decided to take our stand in Isla Vista.

RAINBOW COALITION

BY MR. DENNIS MORIARTY

The Rainbow Coalition is composed of three revolutionary organizations-- The Black Panther Party, The Young Lords Organization, and The Patriot Organization. The Coalition unites the black, brown, and white communities against a single enemy, the octopus of capitalism with all its tentacles.

The Panther Party is the vanguard of the revolution and has been the guiding light of that struggle. The Party has been working to serve the people and bring power to the people. The Party has instituted community services that function and relate-- A Free Breakfast Program, A Health Clinic, Liberation School--Day Care Program and a force to patrol the community against the police power structure. For these services, Huey Newton is in jail along with Bobby Seale, and the Panther 21 and countless others. For this, Fred Hampton and thirty others were murdered.

The Young Lords And the Young Patriots organization have bonded together with the Panthers to make sure that the service will not stop and in fact spread the concept and the structure. The Young Lords recently fought in order to make the institution of the church in East Harlem responsive to the community. The battle is not over even though they were successful in getting a Day Care Program started. They spent months to provide free lead poisoning tests for the El Barrio district despite the beurocracy of the institutions of hospitals and city government.

The Young Patriot Organization now with its main office in Yorkville is working in two free Breakfast Programs downtown and uptown. They have provided a Free Health Clinic for the people of Yorkville. For their services, twelve party members and the chairman Preacherman are in jail.

The reason for the harassment of the members of the Rainbow Coalition is because a united front poses a threat to capitalism.

When all oppressed people, black, yellow, brown, red, and white join together to fight one enemy, that enemy begins to feel that its power is in jeopardy. The Ruling Class strikes out and the jails begin to overflow. The community sees the need for power to control itself and thus the Coalition provides a structure for such a step forward.

(CONT. FROM PAGE 4)

VIOLENCE IN AMERIKA

The Bank of America states, "all Americans . . . lose by violence." Then what is the explanation of their cooperation with the C.I.A. or defence contractors. Harry S. Baker, one of Bank of America's directors sits on the Board of America's Directors, sits on the Board of Directors of the largest police weapons manufacturer in the world, Bangor Punta conglomerate. In who's interest is law and order?

Bank of America works in Bank of America's interest. The acts of aggression perpetrated on the peoples of Southeast Asia, benefit the Bank of America's interests in Vietnam, Thailand, Korea, and a host of other Southeast Asian countries. Could the Bank of America's cooperation with, and the aid of the C.I.A. and Defense contractors be helpful in the expansion and protection of their interests.

The Bank of America states, "like it or not money makes the world go round." The Bank of America has used its money to exploit and repress the peoples of the world. The Bank of America has used its money to promote the interest of Bank of America and to impede the progress of humanity. The students and non-students who burned the Isla Vista branch of the Bank of America, were but one part of humanity. But they decided to take their stand in Isla Vista.
