Mental Health Film

"The Feeling of Rejection," a film on mental health, was shown and commented upon by Dr. Milton Jacobs, psychiatrist of Willowbrook State School, at a meeting of the Parent-Teacher Association of Public School 48, Concord, yesterday.

The film showed how a 23-year-old girl developed neurotic headaches and a neurotic personality due to her childhood background. The overprotection and insecurity developed by her parents resulted in a feeling of rejection and repression, it pointed out.

Dr. Jacobs commented on the film, and emphasized the psychological obligations of parents toward their children. "Children need to be loved, guided and given security," he said, and added that the most important factors in the formation of a well adjusted personality are home, school and neighborhood.

Mrs. Virginia Sanford, president, conducted a business meeting preceding the lecture. A report on the workshop to be held in P. S. 16 Monday was given by Mrs. Gladys Berglund. It was recommended that the secretary write to the city budget director regarding the appointment of a permanent educational director at the Staten Island Museum.

Plans for a spring luncheon March 18 was discussed. In charge of arrangements are Mrs. Bartha Hyman, Mrs. Eva Magri, Mrs. Sylvia Carabetta, Mrs. Ida Passa and Mrs. Helen Seimer.

The PTA will meet again March 11.
