## State School To Occupy 1st New Dorm

The first of five new dormitory buildings being constructed under a \$7 million expansion program at Willowbrook State School will be ready for occupancy tomorrow, Dr. Harold Berman, the institution's director, said today.

Dr. Berman said the dormitory will provide accommodations for 160 infants in four 40-patient wards.

Other dormitories in the construction program, under way for more than a year, will be available at two-month intervals, according to present plans. A large kitchen building also is included in the expansion.

There are 4,800 patients being cared for at Willowbrook, Dr. Berman said.
