25 Psychiatric Aides Honored for Outstanding Achievement

Twenty-four attendants of the New York State Department of Mental Hygiene, representing all but one of the 25 eligible institutions, have received national psychiatric aide achievement awards for 1958. In addition a special award has been made to an attendant at the Psychiatric Institute, which is not eligible for the regular award.

The National Association for Mental Health makes the awards annually for outstanding service to patients and participation in community activities. New York State has participated in the program since its inauguration 12 years ago.

Winners received certificates of achievement at local ceremonies during Mental Health Week and will be honored by the department at a special "Psychiatric Aide Day" in Albany next month.

JACOB RAMSEUR—Brooklyn State Hospital. Staff attendant on open ward, 13 years service.
