

## Center's employees hear alcohol talk

About 300 employees of Staten Island Developmental Center, Willowbrook, attended a women's alcoholic awareness conference yesterday.

Speakers at the conference were Rita Zimmer, a health educator; Kate Sullivan, a regis-

tered nurse, and Louise Gallenda and Marion Adler, both staffers at St. Vincent's Medical Center's Richmond Community Mental Health Center.

Sandy Imberman, a coordinator at the developmental center, organized the conference.
