

STATEN ISLAND ADVANCE, Saturday July 3, 1982

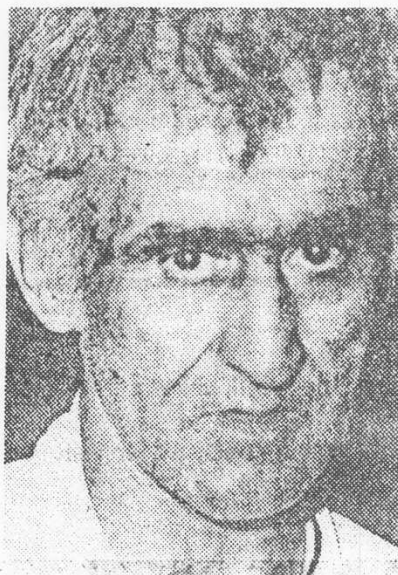

## Center still looking for missing patient

Staten Island Developmental Center officials have been unable to locate a physically and mentally impaired patient missing since June 18.

Developmental Center officials say the man Enrico Raia, 56, is severely retarded. They also say he has a heart condition that requires monitoring and medication.

Raia is 5 feet, 4 inches tall and weighs 125 pounds. His complexion is fair, and his hair gray. He has no teeth and scratches on both sides of his temples.

He was last seen wearing black checker pants and a blue T-shirt. Persons with information concerning Raia are urged to call 698-1440, ext. 373.
