Scope & Content Note

This collection consists of publications, reports, plans and programs created by or for the College of Staten Island.

The **Campus Publications** series includes publications produced by various campus offices, departments, committees and other campus groups. The series includes brochures, catalogs, posters, schedules, viewbooks, the college bulletin, faculty newsletters, handbooks, a cookbook and other items. There are coverage gaps for most regular publications, although the collection includes a complete set of undergraduate catalogs.

The **Programs & Invitations** series consists of programs and invitations for recurring college events. The collection includes commencement programs for all years except 1998 and commencement invitations for most years prior to 1989. While programs exist for other events, there are gaps in coverage.

The **Reports & Plans** series consists of accreditation reports, evaluations, governance plans, profiles, long-term plans, program reviews, self-studies, survey results, and task force reports. Reports related to campus facilities and/or construction are filed with the **Buildings** records. In general, coverage is best for items included in accreditation reviews by the Middle States Association of College and Secondary Schools.

The **Student Publications** series includes student publications such as newspapers, literary publications and yearbooks. Coverage of student publications is good, but there are some gaps in the coverage of student newspapers and yearbooks.
