Year In Review

The shuttle **Discovery** blasted into orbit in September, the first space flight since the shuttle Challenger mission ended tragically 73 seconds after liftoff on **Jan. 28**, **1988**. The Discovery ended its successful four day, 1.6 million mile mission with a triumphant landing at Edwards Air Force Base in California.

The Democrats went to Atlanta in the summer of 1988, and decided on Michael Dukakis, the Governor of Massachusetts, to be its candidate for President of the United States. He decided to pick Lloyd Bentsen, a senator from Texas, as his running mate.

viet Leader Mikhail S. Gorbachev worked for several years to bring the two countries together. After a treaty was signed to eliminate certain nuclear weapons, 1988 was the year the efforts of these two leaders went into effect.

Vice President George Bush, after serving for eight years in the Ronald Reagan administration, got the expected nod at the Republican National Convention in New Orleans in the summer of 1988. His choice for running mate was unexpected — Sen. Dan Quayle of Indiana. The public opinion polls showed that the inexperienced 41 year-old senator was not a popular choice.

Amid tears and grief, thousands of people who had died of **AIDS** were memorialized in **October** in ceremonies centered on a huge quilt that was made from friends and family members of the victims. Each of the panels measured three feet by six feet and all 50 states and a dozen foreign countries were represented in the 375,000 square foot quilt.

The **1988 Summer Olympics** in Seoul, South Korea opened with a dramatic and dazzling ceremony. A colorful, three-hour spectacle mixing ancient Korean rituals with spaceage technology kicked off 16 days of athletic competition.

SAN FRANCISCO EARTHQUAKE

A catastrophic earthquake rocked Northern California on **October 17**, killing at least 62 people and injuring hundreds, caving in bridges and freeways, igniting fires and causing widespread damage to buildings.

The quake which struck during the evening rush hour, just as Game 3 of the World Series was about to begin, registered 6.9 on the Richter scale and was on the notorious San Andreas Fault. It was the second deadliest in the nation's history, exceeded only by the 1906 San Francisco earthquake that destroyed much of the city and killed more than 700 people.

ROLLING STONES

The **Rolling Stones** launched their **1989 tour August 13** when they pulled into a tiny New Haven, Connecticut, nightclub for a tuneup that thrilled 700 fans who paid \$3 apiece for the impromptu gig.

The Stones, who had been rehearsing for the previous six weeks in the tiny northwest Connecticut town of Washington, brought the house down with an 11-song, hour-long set.

Members of the band are (I/r) Ron Wood, Mick Jaggar, Keith Richards and Bill Wyman. The drummer behind is Charlie Watt.

This tour is the Stones' first in eight years.

FIRST FAMILY'S NEW PUPPIES

Millie, the First Family's springer spaniel, gave birth on St. Patrick's Day to four puppies at the White House beauty parlor.

President Bush, knowing of his wife's concern about Millie and the pups, had a bed moved into the beauty parlor for the first lady.

Millie's pregnancy caused a few changes in the White House. Although the puppies were born in a whelping box in the beauty parlor, the dog had been spending her nights in the first family's bedroom.

Bush said, "I never thought we'd go through something like this again — after six kids and 11 grandchildren. But it's a whole new thing. It's exciting."

ECONOMIC SUMMIT

Leaders of the seven most powerful Western nations gathered in front of the Louvre Pyramid for the opening session of the Economic summit in Paris. They are (I/r) EC President Jacques Delors, Italy's Ciciaco de Mita, West Germany's Helmut Kohl, President Bush, host French President Francois Mitterrand, Britain's Margaret Thatcher, Canada's Brian Mulroney and Japan's Sousuke Uno.

A pledge was made to address the environmental problems that threaten the planet, and they endorsed a significant strategic switch in the way rich countries cope with the Third World's staggering \$1.3 trillion debt.

For the first time, the seven leaders agreed that the best way to ease the debt burden of poorer nations is to persuade banks to provide some relief instead of simply issuing new loans.

The problems of terrorism, narcotics and East-West relations were also addressed.

VOYAGER 2/NEPTUNE

Voyager capped its historic 4.43-billion-mile, 12year tour of four planets when it skimmed 3,048 miles over Neptune's north pole in August, then dove past Triton, the planet's largest moon. It made its closest approach about 23,900 miles above the moon's surface at **2:10 a.m. on 8/25/89.**

Voyager was nearly 4.5 billion miles along a curving path that took it from Earth in 1977, past Jupiter in 1979, Saturn in 1981 and Uranus in 1986, and now past Neptune in search of the edge of the solar system. Voyager 1 explored Jupiter in 1979 and Saturn in 1980.

"If you want to understand Earth, go look at other worlds," said astronomer Carl Sagan, a member of the team that analyzed about 81,000 photographs taken by Voyager 2 and its twin, Voyager 1.

KAREEM ABDUL-JABBAR

It seemed that the 7-foot-2 center would be on the court forever. But at 42, the oldest player in NBA history retired.

We watched him change his name from Lou Alcindor and his religion to Muslim. His Afro-style hair gave way to a clean-shaven head. He began wearing goggles as he aged.

Through most of the changes, his gracefulness endured. The skyhook was unstoppable.

On **June 13, 1989,** Kareem gave us his last performance. At the end of the night fans cheered him, his teammates hugged him and his opponent, Isiah Thomas, shook the hand that launched thousands of skyhooks.

When asked about retirement he said, "It really hasn't set in, as far as deeper meanings. I'm just thankful I've been able to last this long and walk out the door."

PETE ROSE

Cincinnati Reds Manager Pete Rose, one of the greatest players in the history of baseball, had been banned for life from the game for betting on his own team.

Rose, who has continued to deny he bet on baseball, can apply for reinstatement after one year. Even if he's turned down, the game's most prolific hitter will still be eligible for election to the Hall of Fame in 1992.

"I've been in baseball three decades and to think I'm going to be out of baseball for a very short period of time hurts," Rose said at a press conference in Cincinnati, where he was born and where he broke Ty Cobb's all-time hit record of 4,191 in 1985.

PARAPLEGIC CLIMBER

With the strength of his arm and the power of his will, a paraplegic completed a weeklong ascent of El Capitan and said his 3,200-foot climb proves the disabled can accomplish great feats.

Mark Wellman, accompanied by his friend Mike Corbett, reached the summit seven days and four hours after they left the Yosemite Valley floor.

"My whole thing in life is finding another way to do it, whether that be skiing, kayaking or whatever," said Wellman, a 29-year-old park ranger.

Wellman wore the same boots he was wearing in 1982 when he fell 30 feet during a climb of 13,700 foot Gables Peak south of Yosemite. He was left paralyzed from the waist down.

Wellman became the first paraplegic to conquer El Capitan.

UNITED CRASH IN SIOUX CITY

United Airlines pilot, Captain Al Haynes, declared "there is no hero" in the fiery DC-10 crash in which survivors outnumbered fatalities. Of the 296 people aboard, there were 185 survivors. Aviation experts have credited Haynes with keeping the craft aloft until he reached the airport, where hundreds of emergency workers were waiting.

The flight crew never doubted the stricken jetliner would make it to Sioux Gateway Airport, where the plane crash-landed short of a runway, flipped and broke apart.

"We must not forget that 111 people perished in this accident. This crew ... is dedicated to finding the cause of this accident so we can never have it happen again," said Haynes.

ALASKA OIL SPILL

The Exxon Valdez, a 987-foot tanker owned by Exxon Shipping Co., struck Bligh Reef about 25 miles from Valdez, Alaska, ripping holes in its hull, gushing millions of gallons of thick crude oil into pristine Prince William Sound. The result was the largest oil spill in U.S. history.

Thousands of workers have helped scrub the oil-fouled shorelines, but as one environmental disaster consultant said, "A spill of this size in such a complex environment promises to be a cleanup nightmare."

Exxon has pulled out its cleanup crews for the winter, and the state announced its own plan to protect fish hatcheries and those still untainted areas.

Exxon has said it will re-evaluate the shorelines next spring and decide then whether to resume the cleanup on a large scale.

FLAG BURNING

The Supreme Court has limited the power of states to outlaw the desecration or destruction of the American flag.

Justice William J. Brennan, writing for the court, said, "If there is a bedrock principle underlying the 1st Amendment, it is that the government may not prohibit the expression of an idea simply because society finds the idea itself offensive or disagreeable."

"We do not consecrate the flag by punishing its desecration, for in doing so we dilute the freedom that this cherished emblem represents."

Joining Brennan were Justices Thurgood Marshall, Harry A. Blackmun, Antonin Scalia and Anthony M. Kennedy.

U.S.S. IOWA EXPLOSION

A fiery explosion in a giant gun turret rocked the refitted battleship, U.S.S. lowa, killing 47 sailors and injuring many others.

The explosion occurred on **April 19, 1989,** in one of the battleship's three 16-inch gun turrets as the ship was taking part in a gunnery exercise about 330 miles northeast of Puerto Rico.

After a lengthy study, the Navy said that gunner's mate Clayton Hatwig "most likely" caused the explosion in the battleship's No. 2 gun turret by inserting a detonator between two powder bags.

But the investigation also alleged numerous lax procedures aboard the ship, including unauthorized experimentation with extra-strength gunpowder and projectile loads.

PRESIDENT BUSH VISITS POLAND

More than 50,000 people gave President Bush a hero's welcome at the worker's monument where Solidarity was born in a wave of labor upheaval. Bush told the cheering crowd that their struggle had produced "a time when dreams can live again" in the democratic transformation of Poland.

Earlier in the day Walesa hosted a homestyle private lunch for the president and raised the possibility of even more aid to Poland by Western nations than the \$115 million previously announced by Bush.

Solidarity argues that the help is needed to ensure that public unrest does not upset the delicate progress toward democracy. But it agrees any aid should have tight controls on it, so it is not wasted as it was in the past.

Before taking leave of the workers, Bush and Walesa together faced the monument and raised their arms and gave the "V" for victory, a sign used by Solidarity.

MISS AMERICA 1990

Miss Missouri Debbye Turner, a mirimba-playing veterinary stu dent from the University of Mis souri, was crowned Miss America 1990 this September.

She grabbed and hugged firs runner-up Miss Maryland Virginia Cha, of Frederick, and gave a thumbs-up sign to the audience before tearfully walking the run way.

Miss Turner is the third Black woman to become Miss America in the pageant's 68-year history She succeeds Miss America 1989 Gretchen Elizabeth Carlson o Minnesota.

VIETNAMESE BOAT PEOPLE

More than 61,000 boat people fled Vietnam in the first eight months of this year, a figure higher than any full year since 1981, and Hong Kong is bearing the brunt of the influx.

Most of the newcomers in the British colony face forced repatriation as "economic migrants" because only those boat people who arrived before **June 16, 1988,** were automatically considered to be fleeing political persecution.

There have been many flights in the overcrowded Hong Kong camps, and cholera has broken out among other Vietnamese refugees living in primitive conditions on outlying islands.

Although Communist Vietnam is encouraging the voluntary return of migrants who are refused refugee status, only 260 have gone back despite formal assurances that they need not fear any reprisals.

TIENANMEN SQUARE — BEIJING, CHINA

Gone from Tiananmen Square are the pro-democracy banners and the tents of China's freedom movement, the armed guards and the chants of drilling soldiers. The Goddess of Democracy, a 33-foot-high replica of the Statue of Liberty which had become a symbol of the movement for democratic reform, has been crushed by tanks and taken away.

The pro-democracy protests began on **April 15** with a call by students for talks on increasing social freedoms and ending official corruption. They peaked during the week of **May 15**, when Gorbachev visited the country, and nearly one million people poured into the streets.

Martial law was declared on **May 20**, and troops attempted to move into the square but were driven back by masses of citizens sympathetic to the protesters.

On **June 3**, troops opened fire on the protesters, smashing through barricades with tanks to reach Tiananmen Square. While the government claims that nearly 300 people, mostly soldiers, were killed, diplomats and Chinese say up to 3,000 died, and Chinese Red Cross officials estimate 3,600 people were killed and 60,000 injured.

HURRICANE HUGO

Leaving a trail of death and destruction across the Caribbean, Hurricane Hugo smashed into the coastal city of Charleston, South Carolina on **September 22**, **1989**.

Hugo's 135-mile-an-hour winds snapped power lines, toppled trees and flooded the low-lying areas of South Carolina, causing more than half a million people to flee and leaving thousands homeless.

Congress readily approved \$1.1 billion in emergency aid for the victims of Hurricane Hugo — Capitol Hill's largest disaster relief package ever.
